

ComClad™ HF

High Frequency Circuit Material

Large Laminate Panels

ComClad HF is now available in large laminate panels up to a size of 24" x 110" with a variety of standard dielectric thicknesses and copper cladding. Sheldahl's flexible manufacturing also allows for custom designs of panel size, thickness and copper clad.

Large laminate panels performance and properties are the same as standard ComClad HF 12" x 18" and 18" x 24" panels. Thinner large laminate panels can be rolled up for shipment with thicker panels shipped flat.

ComClad HF Large Laminate Panels Standard Configurations

Thickness: .030" ± 10% (.76mm ± 10%) .060" ± 10% (1.52mm ± 10%)	Cladding: 1oz (35µm) Copper
Panels Size: 24" x 110" (610mm x 2794mm) Smaller panels can be cut from this master panel size	Color: Black

Contact Sheldahl for non-standard configurations. For more information visit Sheldahl's web page at www.sheldahl.com or contact Sheldahl at one of the phone numbers below or email at comclad@sheldahl.com.
